

East Harrop Road Building Startup

As per our previous public notices and public meeting, please be advised that Harrop-Procter Community Co-operative will be building 3.1 km of road in East Harrop Creek this fall. The new road section begins just past the 4 km sign, and heads south. Following road building this fall, we expect we will have winter logging operations in this area.

Firewood cutters and others using the road must be aware that there will be logging trucks hauling Monday to Friday. Firewood cutters: PLEASE do not leave any bark, branches or other debris on the road or in the ditches.

On a related note, our logging operations in CP140 Block 5 at 5.5 km in East Harrop are now complete for this year.

If you have any questions or concerns, please contact Erik Leslie, HPCC Forest Manager, at 229-2271.

Note:

To clarify, this road building is located on the logging road behind the Harrop firehall.
