Finished products such as decking, flooring and paneling are kiln dried. **We can make finished products from many of the lumber products above.**

Place your order early so we can meet your construction schedule.

GRADES:

- **Grade 2&Better** (above dimensions with no label attached are 2&Better) – lumber has minimal wane, mainly square edge, sound tight knots. Material suitable for finishing, flooring, paneling, siding, decking, trim etc. Mixed grain.
- **Grade #3** – lumber has wane, minor checks, occasional small loose knots. Material suitable for fencing, strapping, exterior cladding or resawing for smaller dimension paneling etc. Mixed grain.

Above prices valid for 30 days. Prices in CDN \$.
